An amendment that made OCS oil subject to the provisions of the Export Administration Act of 1969; required the President to publish a report certifying that such exports will not increase our oil imports; and provided for Congressional disapproval of such exports; and

An amendment that deleted provisions in the bill related to compensation for lease cancellation and substituted language stating that "such cancellation shall not foreclose any claim for compensation as may be required by the Constitution".

Previously, agreed to the following amendments to the preceding substitute:

A technical amendment that clarified the use of the term "Secretary";

An amendment that provided for disapproval of any rule or regulation issued pursuant to this legislation by either House of Congress;

An amendment that required the Secretary of Interior to make recommendations for a training program for personnel handling pollution control equipment on OCS operations; and

An amendment that assured that functions transferred to the Department of Energy and FERC are maintained.

Rejected an amendment to the preceding substitute that sought to require that six months after enactment all vessels, platforms, etc. meet minimum standards established by the Coast Guard; and that after one year all vessels, platforms, etc. be built or rebuilt in the United States (rejected by a division vote of 19 ayes to 23 noes).
